MURRAY FOSTER WRITES OF U BOATS

Sonoma Boy in Navy Encounters Some of Enemy's Submarines

Murray Foster, son of Mr. and Harry Foster, formerly of this place, who left High School to enlist in the navy has been right in the thick of the U boat encounters between here and the other side. He has been aboard one of the convoys of United States boats going through the war zone and has enjoyed his experience immensely, dangerous as they were. "Getting" submarines is evidently the joy of his life and his preliminary cruises must seem tame in comparison. Murray is an electrictian by trade and made good from the minute he entered the service of Uncle Sam. Here are some of the excerpts from a letter received from him not long ago:

"We had lots of joy on our way to France. After we got into the war zone we had little sleep. The first sub we saw was in the afternoon, it came up in a heavy swell between us and the sun. We said "Good afternoon" to it with everything **good** we had on board. Before it had its periscope out of the water five feet we gave them a nice little six inch and it was "good night" for the U boat. At the time I was standing on the bridge semaphoning to one of the other ships. We fired the turret guns which were right under me and I thought that the world had come to an end. Fire, smoke, wind, noise and I was flat on my back but I was up and at it again. One never thinks of personal danger until the danger is over. The next sub we bagged was in the early morning and it also came up between us and the sun. on a heavy swell. The word must have been passed around that Uncle Sam's boys were good marksmen for after that the subs me met would not stop to play with us tho we gave them a cordial invitation.

The trip was a strenuous one and we all were proud of Sam's boys. One never saw such a cool, calm bunch of fellows as we have on our ship. We were all glad to be able to make up our lost sleep. I slept 20 hours without waking. Some sleep, believe me. I was refreshed and felt so fine could eat nails."

A wild flower day was an attractive feature at the Grammar School yesterday.

Dr. Thomson and Carlos Emparan motored to Willets last Saturday also stopping off at Healdsburg to see Bill Hill.

SONOMA STOCK BRINGS BIG MONEY

London Ranch Calves Command Fine Prices at First California Short Horn Sale

The California Short horn cattle producers held their first sale and meeting in honor of the secretary of the National Shorthorn Association, in San Francisco last week. The meeting was attended by Mrs. Eliza Shepard, superintendent of the Jack London ranch at Glen Ellen who exhibited some fine calves at the sale some of which brought $450 and $425 each and a baby calf $150. They were from the famous Rose Lawn stock which has taken many prizes at the State Fair, Land Show and other big exhibitions.

Mrs. Shepard attended the dinner given to the national secretary at the Palace Hotel and was one of the few women producers present. She was the only one who made a speech and after her spirited and intelligent talk a U. C. professor complimented her by saying that he thought she needed no pointers from the association either on raising cattle or speech making.

The clever woman manager of Sonoma Valley's proud ranch which boasts almost a dozen stars in its service flag goes to Oakland on the 24th of this month to present a flag to the women of 1861 to 1865 who sewed at home during the war and are now the pride of the Grand Army.

Mrs. Shepard is intensely patriotic and says that every employee of the London ranch is expected to buy a Liberty Bond. She says the good American money paid out in wages on that ranch will be pay roll for proven Americans only.

MORE YOUNG MEN TO GO

Four Sonoma Soldiers To Entrain Next Week Among Twenty-five From This District

Twenty-five stalwart lads from District No. 2, which comprises this valley and Santa Rosa, have been called to the colors and will entrain for Camp Lewis on April 26th. Among them are four Sonoma young men: Byron Weaver, John Schutz, Geo. Angove and George (Buck) Carpenter.

Byron Weaver is the son of Mr. and Mrs. Frank Weaver of El Verano. John Schutz is the former genial Wells-Fargo agent of this place who some time ago was transfered to a position as traveling representative of the company. Geo. Angove is the son of Mr. and Mrs. Angove, the poultry raisers and is widely known as the talented trombo player at Fetters Springs. Geo. Carpenter is the well known horse dealer and sport of this locality and went to Camp Fremont to enlist but not having made application before he was called in the draft, the local Exemption Board could not release him. Carpenter will therefore leave with the rest for Camp Lewis next Friday .

Sonoma's Glove Factory is Now Filling Govt. Orders

Plant Established Last Week Now In Full Operation With Many Girls at Work. Men Employees Wanted

Last Monday morning witnessed the opening of the California Glove Factory's Sonoma branch which is now in full operation in the Masonic building where nearly forty girls are busy learning the trade of glove making. The entire length of the big floor space is equpped with machines and it is planned to turn out about 150 dozen gloves per day mostly for the army. On Wednesday the Napa plant entered an order from the government for 700,000 pair of army gloves. The local superintendent, Mr. J. H. Morgan who has moved to Sonoma with his family and is occupy the Calderwood house on Patton St., is most enthusiastic over the possibilities here for turning out big work. He announces that Sonoma's factory is to be a permanent plant and will expand until 150 employees will be employed.

The Heggie building is being extensively altered and renovated to accommodate the cutting for the factory and men are being advertised for elsewhere in these columns to do this work.

The girls first work on the lining of the gloves and then on the kid. They are all enthusiastic over the pleasant working conditions and considerate treatment accorded them.

Manager Ralph Raymond who has made all the arrangements here and established the Sonoma branch, is the son of the president of the California Glove Company and one of northern California's big business men. It is a distinct compliment to Sonoma that he has interested himself in its industrial future.

Many girls of our most prominent families have signed up as employees of the company and it is this cooperation and willingness to accept employment that is going to make the plant a big success and boost Sonoma.

Remember, it is not only the safest investment in the world—government bonds always were—but there is the imperative necessity now of winning this war and backing up our boys going over in steady streams to the trenches. You may thank God the war is being fought on European soil. We at home ought to be willing to give our utmost and invest the limit in this Liberty Loan. NOBLE SONS ARE HONORED

St. Francis Parish Paid Thrilling Tribute to Boys Gone to War at Service Flag Dedication Sunday

If the noble sons of St. Francis parish now serving in the army of their beloved country could have looked in on their old home town last Sunday they would have realized how highly each and every one of them are regarded by the people of this community and how deeply spiritual are the prayers for their well being and safe homecoming among those who gather each Sunday before the sacred altar of the church.

The dominant note Sunday was pride in the young men from Sonoma Valley Catholic families who have given themselves for army and navy service to the United States and a handsome service flag hung at the entrace was indicative of the forty-eight boys and fair young woman serving their country from this section. On either side of the service flag were draped the stars and stripes, the effect being both impressive and inspiring.

At 10:30 o'clock all the parishioners assembled in the church and Rev. T. P. Moran said mass, a masterly sermon aprop to the occasion marking this part of the ceremonial. Father Moran, always a gifted and flowery orator spoke with intense fervor, for the war theme is very near to his heart since but a short time ago he lost both brother and father in the great conflict "over there." So his discourse on the service flag and its symbolism was most thrilling. He said in part:

"Our service flag is an expression of our feelings It tells of our love and respect. It is a visible sign of greater things we think. The individual star has a wonderful signification. Let me remind you that once upon a time the Eternal Father raised, so to speak, the window of Heaven and leaning over spread a wonderous service flag with one star on Bethlehem's sky—the star of the [illegible] of the Savior, that led from darkness to light, to righteousness and truth.

"Your stars, 49, mark the stand of the brawn and muscle of this community for righteousness, truth and democracy. The one fact of the moment is that we are at war, the crisis of the war I may say. We are in the midst of the mightest of human conflicts. The duty of every Catholic man and woman is laid down by his or her religion and that is to rally to the support and defense of this country with every ounce of strength and with all the ardor of soul. Thank God the manhood of the country has heard the call and the manhood of America stands embattled about the stars and stripes in the blood soaked trenches of France and on the decks of a hundred transports in deadlest peril. Our American youth, the flower of humanity, thereby prove their conviction of the eternal principles of freedom and justice, of truth and right. Their's is the supreme sacrifice! What after all is the sacrifice of public or private wealth? What our material help? What our efforts for the physical, social or moral welfare? Nothing! Realize the sacrifice the soldier and the sailor make daily for the common welfare—the supreme sacrifice.

"We are in the war and modern war is the mobilization of the entire nation, men and women, who perforce stay at home are in duty bound to help. We must forget ourselves and accustom ourselves to think first of the nation, its perils and its hopes, its needs and its ideals.

"What then is our duty?

(1) To buy bonds. Lay not your money idle. Uncle Sam is your safest banker today. Then buy bonds like men. Do your duty and be not slackers.

(2) Listen to authority and act upon instructions in the conservation of food material. Just a little economy.

(3) Help the Red Cross cause. When this cruel war is over each member shall be a hero.

(4) Help those that uphold the morale of our army and navy, the Knights of Columbus and the Y. M. C. A. Their work is noble self sacrificing and unpretentious.

(5) Lay aside squabbling and differences of political opinion and jealousies of other men.

(6) Back your government up in its every effort.

(7) Be a unit in mind, in action and in force.

"Let me tell you of an incident in the presnt war so we may learn a lesson from it. At the outbreak of the war Catholic patriotism was put to the test in France. For many years before the French government had persecuted the Catholic Church. Priests and Monks, Sisters and Brothers were expelled from their native land and forbidden the exercise of their religion. Monastries and convents were closed and their property confiscated. When the persecution was at its worst the war was declared and France had to meet the old enemy in deadliest conflict. Then it was that the Catholic priests and monks and sisters and brothers, despite their sorrow of heart. despite a cruel bigoted persecution, rallied to the tri-color. Priests rushed to the trenches in thousands and nuns to the battlefields. They came back from foreign lands. Two priests, professors of our seminary in Menlo Park, went back and one gave his life to his country, the other his strength to a country that expelled them because they were Catholics and monks. They forgot the days of persecution and fought and bled for "La Belle France."

"Surely then we of America must forget creed and bigotry, birth and color. Our duty is to pay the standard, our duty is to pay the supreme sacrifice if necessary. Let our prayers go up to Heaven today for our soldier and our sailor boys, that's the least we can do. In God's name do more. Sacrifice your wealth and your comfort. You must bring back your boys trlumphant. That is your duty."

At the close of the sermon Mrs. Lulu Emparan beautifully rendered the "Star Spangled Banner" after which the open air ceremonies took place. Before the proud service flag mothers, fathers and friends of the soldier and sailor boys gathered and joined in the reverently beautiful prayer invoked by Father Moran who blessed the flag and dedicated it to the parish. Herbert Slater, master of silvery tongued oratory and flowery vocabulary, then gave an address which must have reached the hearts of everyone present and made them thrill with pride for he complimented the Sonoma Valley highly on the splendid young manhood which is upholding the honor of this portion of the United States in the struggle for justice, liberty and right for all the world.

All joined in singing the "Star Spangled Banner" at the conclusion of this splendid day.

Dr. I. C. Gobar was master of ceremonies at the dedication and read the roll of honor symbolized by the stars on the flag.

Harold Stockwell of the 2nd. Field Artillery, U. S. A., has been home on a visit.

FLOWERY HAS LIBERTY RALLY

Wide Awake School District Does Itself Proud Last Friday Night.

If the United States has many little school districts like Flowery in this valley, we are going to win the war good and proper, soon, for last Friday night the school and community around Fetters and Caliente participated in a Liberty rally that was certainly a credit to them and to all of Sonoma Valley. The children of Flowery School presented an especially fine program and patriotism surged strong through the hearts of all present as the stirring songs, tableaus and brilliant addresses were given. The program was as follows:

Rec Cross Drill, followed by the entire school chorus singing Sousa's "Stars and Stripes Forever."

Tableau: Miss America, Grace Ringressy; Soldier Boy, Wilfred Cohen; Sailor Boy, Eddie Meinhardt followed by the singing of "America" Red, White and Blue and Flag of the Free by the entire school.

Solo: Marsellaise, Mrs. A. P. Ringressy.

Solo: Over There, Watson Garoni.

Songs of '61: School Chorus, Dixie, Old Folks at Home, (to music of Humoresque)' Tenting Tonight.

Reading: Battle Hymn of the Republic, Landers Stevens, given with the music by piano and chorus by school. followed by a recitation, "The Dandy Fifth" by Mr. Stevens.

School Chorus: Soldiers Chorus, Anvil Chorus.

Solo with Obligato: Over the Top with your Uncle Sam, Wilfred Cohen, Eddie Meinhardt, Henrietta Zell, Laura Kiernan and Genevive White.

Chorus: When Sammy Comes Marching Home,

Just before this chorus was sung, little Miss Grace Ringressy, daughter of Lieutenant A. P. Ringressy, now in France, came out dressed in an officers uniform, full regalia, saluted the Chairman, Mr. Stevens, and the Trustees, turned to the audience, and stood still. The school then sang "Somewhere in France is a Lily" followed by a solo, "Just A'Wearyin' for you" by Grace Ringressy. It was the hit of the evening.

The chairman then introduced the speaker of the evening, Mr. Rolfe Thompson from Santa Rosa, and his oration and delivery was fine and to

American Education A Proven Success

The schools and colleges of the nation have vindicated their position in encouraging atheletics for now that we are at war we realize the benefit derived through physical development encouraged during school days. There were many carping critics who decried that we should train the brain and not the brawn but red blooded Americanism asserted itself and would not conform to a school curriculum entirely ideal and intellectual wherefore we had much atheletics which developed muscle, keen spirit of rivalry and quick decision at critical moments. These are the attributes which are contributing to the fine morale and health of our army today. Bookworms and anæmic dreamers get rude shocks when shaken from their hitherto comfortable nitches in life to share the hardships of military life in our training camps but the lithe fit atheletes which compose the overwhelming majority of our soldier boys take to the cantonment careers like ducks to water. We have never advocated Spartan like fitness in the education of American youth but we had the forsight to provide for a well balanced ration of book learning and athletics which now stand us in good stead. Sports and contests should at all times be encouraged and although agricultural activities and the real labor which students will be called upon to supply with their older brothers gone to war may afford lots of exercise and muscular opportunity there will still be a place for school athletics developing keen rivalry and clean cut sportsmanship.

The schools, too, have been the dependable altars upon which the unflickering light of patriotism has been kept aglow and we now realize how important has been the trust imposed upon them, that of making the heart of every native and adoped child reverence, honor and love "the home of the brave and the land of the free." The task in other countries is not in comparison but here in the United States where so many strains of blood are intermingled it is a tremendously important work—the foundation of our citizenship, the real preparedness for crisis such as we now find ourselves in.

We can now see the danger of teaching idealistic sentiment of so called newer patriotism which in theory is the beautiful brotherhood of man but in practice is blind disregard of creatures, who are at heart monsters, selfish, cunning and treacherous yet a part of humanity today interested in nothing but the spawning of their own kind and the deterioration of every other race.

So we take off our hats as never before to the good old fashioned American school room patriotism which will now be speeded up by the very spirit of the times and the pride we feel and can proudly instill in every future citizen.

It is with a thrill of satisfaction that America's educational life has proven itself to be well rounded, well founded and far seeing.

The roundup today is not a cowboy show but the gathering in of all shiftless idlers. We suggest that the utility be extended to include the well known figures around every town who pretend to have an occupation and call it work. Able bodied men who hang around all day these times are slackers. The fact that they have dependents is often a bluff. Nine times out of ten their "dependents" are keeping them.

Because the government now operates the railroads, some candidates for the governorship of California will miss their favorite victim. Oratory will surely suffer. With no railroads to pick on, it will have to be a new bone of contention that politicians must fight over.

"Age before beauty" was always a popular slogan but now it is to be "tractor before motors" which is equivilent to saying producer before consumer or farmer before joyrider.

W. B. Selmer, the Novato speed cop has been deprived of his star. Any time you get mixed up with coroner you are a dead one. Remember, Coroner Phillips got pinched. Nuf sed.

Pig production is not a pastel pastime but it is a paying one.

Weinstock is congratulating himeslf that he has at last succeeded in getting salmon down to 20 cents per lb. Poor fish!

The silver lining in the cloud of war will never show itself unless we help to put it there by buying Liberty Bonds.

"Not for me," Chester Rowell is quoted as saying in regard to the governorship of California. Right you are brother. We figure it never was for you.

"BE READY TO GIVE ALL"—MESSAGE OF UNITED STATES SENATOR PHELAN

United States Senator James D. Phelan has sent a message of ringing appeal to every Californian, regarding the Third Liberty Loan. It follows:

Liberty Bonds must be sold by the Government and every true American able to purchase them must do so until German autocracy shall sue for peace and her militarism be forever crushed. The greatest obstacles to the early success of the war are the indifference of a part of the people and the utter lack of patriotism of many together with the self-confident optimism of a majority that the war is as good as won. Never was there a greater mistake. The contest will not be won until America puts forth her strength in man power and billions of dollars. The principles upon which the nation rests are at stake and no American can afford to falter in their defense. Every American citizen must learn the lesson of sacrifice for the war may last for years. The head of every family in America should purchase Liberty Bonds. Every child should be the possessor of war savings certificates. Shun the slacker and treat every traitor as a traitor. Utah will not fail in her duty.

THE PATH TO VICTORY

LIBERTY BONDS pave the way to VICTORY in war,—an early, complete, triumphant VICTORY. If we are to win the war abroad we must first learn to spend wisely, to abandon luxury, and invest every dollar we possibly can in the bonds which provide the materials and equipment without which the war cannot be won.

FURLOUGHS FOR FARMER BOYS

The Farm Advisors office is in receipt of General Orders No. 31 from the War Department of Washington relating to the granting of furloughs to enlisted men in the United States army in order that their services may be made use of by the farmers. Accompanying the order is a supply of furlough application blanks which may be filled in by the relatives of the soldiers whose services are desired. In these applications must be shown the necessity of the work the soldier is desired and his fitness for it. The filled in applications have to be passed by the local board and the the county agent, or Farm Advisor, and forwarded to the commanding officer of the post at which the soldier is serving. The commanding officer will then grant the furlough if it does not seriousy interfere with the training or preperation of the organization of which the soldier is a member.

The furloughs granted will be for short periods only and will not be granted to the soldiers of 1st Sergeant or above. The necessary application blanks are to be had at the office of the Farm Advisor or at the office of the local board.

Mrs. Z. Lane, Miss Beth and Mr. and Mrs. Warren Lane are contemplating a motor trip to the state of Washington.

Mrs. A. P. Ringressy has had word from her husband who is at a distinguished school for officers of the artillery and cavalry in France. He says the weather is beautiful and violets are blooming in the garden of the Y. M. C. A. hut which is really not a hut but a beautiful home of 20 rooms. After training at this school founded by Napoleon I, the men are sent forward for service behind the lines and are gradually advanced to the front.

VINEBURG

Wm. Shackelton, the veteran San Francico fireman, was greeting old friends here last Sunday.

Mr. Rector of San Francisco visited his family at their pretty country home here last Sunday.

Mrs. August Figone visited her parents at the John Batto home several days this week returning to her home in the bay city Wednesday afternoon.

We have received a fine letter from our old friend Otto Gericke Jr., who is stationed at Fort Worth, Texas. He says everything is O. K. there even the cold weather.

Grover Rubke our station agent is among the patriotic railroad men who have bought Liberty Bonds.

Mrs. Joseph Groskopf of Oakland visited Mr. and Mrs. A. Groskopf at "Whispering Pines" last Sunday afternoon.

Shippers of express should acquaint themselves with the new Wells-Fargo regulations to go in effect after May 1st, requiring the proper making of all shipments as no shipments will be accepted after this date which are not properly addressed.

A number of guests are now registered at Raynals Vineyard Villa and preparations are being made for many more.

Louis Martin called on Sonoma's "classy mixer" John Pluth, one day this week.

Henry Regal, the popular mixologist at Vineburg Inn, is enjoying a well earned vacation. Dame Rumor, that wise old lady, has spread the news that Henry will in the near future lead Miss Alice Loustaut to the altar. Good luck, Henry.

Enrico Forni, our well known artistic contractor and builder is making many improvements around the Rector residence at this place.

Louis Martin was callled to the metropolis last Monday.

A carload of choice wine was shipped last Thursday to Balande & Co., Noumea, New Caledonia. Good for Sonoma Valley.

The Rhine Farm vintage can be found."

Easy Jim,

Dear Sir:-

The Sonoma city election is now over and we out here learn that one of Sonoma's streets is known as Germany Street. We think it should be the first duty of the Board to change the name to Bear Flag St. Sonoma certainly was not made in Germany,

Yours,
TILLIE TEMPLETON

Axel Soderberg, a well known young man of this vicinity, is visiting his parents, Mr and Mrs. C. Soderberg, The young sailor has just completed a four year enlistment in the navy and during that time has visited some of the most interesting places in he world. He has reenlisted in the navy and will do all that he can to uphold the honor of Old Glory.

Ex-Supervisor Blair Hart and son motored through this part of the valley one day last week. All his friends were glad to see him.

Breathing.

To learn to breathe properly inflate the lungs and walk for five paces, keeping the mouth shut and breathing through the nose, increasing the five paces to ten and then to fifteen or more. Follow this up by taking several long breaths after getting up in the morning and again before retiring.

Dryden and His Wife.

Dryden married Lady Elizabeth Howard, a shrew of marked ability. She complained that he showed her no attention and wished herself a book that she might enjoy more of his society. "Wish yourself an almanac, my dear. Then I could change you every year."

A Negotiable Draft.

"Well," replied the physician when his patient wife asked him for money, "I hope to cash a draft soon and then"—

"Cash a draft? What draft?"

"The one I saw Mr. Oldtown sitting in this morning."

Discouraged.

"Are you working for the uplift?"

"Well, I'd like to. But everybody I try to uplift tells me to mind my own business."—Seattle Post-Intelligencer.

The Reason.

"Why is it that dressmakers so often get away with smuggling?"

"I suppose it is the survival of the fit-tist."—Baltimore American.

FINE REPORT OF THE RED CROSS

Sonoma Doing Proud Work and Plans Go Forward as Membership Grows

A new lot of Red Cross buttons have been received and any member not having one can be supplied by calling at Hotz store.

The Chapter at Santa Rosa has acknowledged the receipt of the last box of hospital supplies and credits the work as being beautifully done. A few new directions regarding knitted work have been sent out and all Sonoma knitters are requested to consult the local supervisor, Mrs. Thos. Brown, as soon as possible. Mrs. Brown can always be found at the grammar school every Wednesday afternoon and at the city hall on Thursdays.

The Sonoma Grammar School is now the proud possessor of a Charter which makes the school an auxilliary to the American Red Cross Society. In the manual training department the children are doing most excellent work for the Red Cross and Belgian Relief.

The Military Relief Committee has been authorized to prepare estimates of cost of a proposed tea house of rustic design to be placed in the Plaza and where the "cup that cheers" could be made a source of revenue to the society.

The treasury of the Sonoma Branch has recently been argumented by the following donations: Mr. Trudgon, $1.00; Mrs. H. F. Bates, $.50; Flying Needles, $5.00; Eastern Star, $5.00; Proceeds of Boyes Springs dance, $40.00; Club House Lunch, $63.50.

ORDER OF RAILWAY EMPLOYEES INVEST

Directors Vote $15,000 for Liberty Bonds

The directors of the Order of Railway Employees have invested $15,000 in Liberty Loan Bonds. This is three times the investment made by the same organization in the first loan. The recommendation was made by W. V. Stafford, chairman of the board of directors and supreme conductor.

In making the recommendation, which was carried unanimously, Stafford said:

"At the call of the Federal Government for the first Liberty Loan, you invested $5000 of the Benefit Fund of the Order in the Liberty Bonds. Since that time the Government has called an army to the colors. From every State in which our Order operates, and especially from California, where our membership is strongest, our members have responded to the call They are found in the regular army, in the navy, in the volunteers, and in the drafted ranks.

"Now the Government makes an urgent appeal for subscribers to a second Liberty Loan, to support and maintain the men who have taken up arms in defense of the Nation's honor, its principles of government and its very life.

"I believe our membership will heartily endorse any action on your part that will aid the Government. I, therefore, recommend that you arrange for the immediate purchase of Liberty Bonds of the second issue to the amount of $15,000 as a further investment of the surplus in the Benefit Fund of the Order.

"I have taken the matter up with the Insurance Commissioner of California and he heartily endorses such action."

WHAT IS THE SUR-TAX?

Many interested in the Liberty Loan and the war tax bill which has just passed through Congress and become law, have but a hazy notion of the meaning of "surtax."

Here it is: A sur-tax affects those having big incomes. When the interest derived by an individual or corporation from investments exceeds $5000 per year, then that income is subject to a surtax.

Thus a sur-tax will affect incomes derived from Liberty Bonds only when the interest on those bonds exceeds the $5000 minimum. The interest on $125,000 in four per cent Liberty Bonds is $5000, and therefore is not subject to surtax.

In this way, the Government hopes to have the wage earner invest in the war loan, since his investment would be small. On the other hand, failure to subject Liberty Loans to the sur-tax would encourage millionaires and corporations to make investments in them and sequester their wealth from further participation in the Nation's work.

BOYES SPRINGS NOTES

The people around Boyes Springs are surely helping the boys "over the top" according to Lander "Jack" Stevens report of how liberally all are responding to the Third Liberty Loan Bonds. He says subscriptions will run far beyond what was expected of the district that he has charge of. This another instance of the right man in the right place and there is no question that they selected the right man when they selected Mr. Stevens to canvas this district for "Jack" has the faculty of knowing just how to approach and up to date he has not failed to sell a Liberty Bond to any one he has talked to. The subscribers names will appear in the next issue of this paper. See that your name is on the list.

There is no doubt but that the "Valley of the Moon" has felt and is feeling the effects of this cruel war in many, many ways but this is not all that the valley has to contend with. There is a smaller, yet a most disagreeable and dangerous enemy in our midst (the advance guard having already put in an appearance) the mosquito. There are many pools and breeding places for these undesirables in the district and now is the time to eliminate this army before they become too numerous. They are not affected by bullets but oil will get them. We have a mosquito commission in this district and they have or can get oil for this purpose. The blessing of the community will be yours, gentlemen, if you eliminate these pests. Your duty calls you, gentlemen, and the people of your district appeal to you to save them from these pests. To think is a loss of time. Action is needed.

Captain Curtis, of the Pacific Mail Steamer Colusa has been a guest at Boyes Springs for over a week. The Colusa is the steamer that took off over 700 from a French vessel off the coast of Japan. Captain Curtis is now on leave of absence on this trip but will be in command of the Colusa on her next trip to the Orient. The captain says that in all his travels he never saw a more beautiful spot than this valley and that when he is ready to retire from the sea he will locate in the "Valley of Moon." Good luck, Captain.

Wonders will never cease. Dr. Parramore is with us again, looking anad feeling well. Col. Brady had ordered a "Fatted Calf" to be killed but through some mistake the Sonoma butcher the calf did not get here in time and all the doctor got was a hearty hand shake and a welcome home. Looks like old times around Boyes to have the "old boy" back again.

Mike Cummings, the butcher, and Mr. Kolberg of Healdsburg, motored down last Sunday evening to pay a visit to their friends in and around Boyes. The missing "link" (takes three to make a link) "Bill" Hill, could not accompany them on account of being too busy. This was greatly regretted by "Bill's" many friends. Anyhow we were pleased to see Cummings and Kolberg. How about the fish, gentlemen? Call again with the "Link."

Jim Baines, the official driver of the "Red Devil," is kept busy these days breaking in new drivers for the chemical. Jim says he cannot drive the fire engine and sell real estate at the same time. There is a boom in and around Boyes and it keeps Jim busy.

The benefit for the fire department and the dedication of the new park at Boyes will take place about the middle of May and it will certainly be a gala day and nigh at Boyes. Due notice will be given to the public in the next issue of the Index-Tribune.

Our "Mayor" pleaded Not Guilty to the charge of hanging over a certain gate. He claims to be too young a "bird" to be caught doing such foolish stunts. His plea has been accepted and he is hereby exonerated of the charge.

Joe Ryan's new livery stable is almost copleted. It will be a welcome addition to Boyes.

Steve Anazitos has started work on his new grill. Steve says that it will be a larger and nicer grill than the one destroyed by the fire. "Charley Chapin" has nothing on Steve when it comes to cooking spaghetti.

A word to the wise is sufficient. Now is the time to cut the grass in and around your garden. When the grass becomes dry a cigar, cigarette or match carelessly thrown will cause a fire. The chemical engine cannot prevent this. Nuf sed.

Geo. Melville of Vallejo motored up Sunday to spend the day in the "Valley of the Moon."

FATE OF THE WAR RESTS ON FARMER

Must Realize Great Part He Is to Play

BONDS SAFE INVESTMENT

Government Expects Farmer to Subscribe Freely

AMERICA CALLS FOR HELP

"The farmer in 1775 became the minute man and his shot was heard around the world. The farmer of 1917 is not only the minute man of the day but the bonds-man, feeding the peoples of the world," declared George W. Peltier, vice-president of the California National Bank of Sacramento, in a statement to the Liberty Loan Publicity Committee.

Continuing, Mr. Peltier says:

"The farmer has not yet realized the importance of his position as a citizen, and the part he must play in the great international struggle that is now going on.

"At the present time he is looked upon as the individual who must win the war. In the eyes of those not engaged in gathering the products of the soil, he looms up as the one great big factor upon which the world is now depending.

"The cry is for food, and then more food, and the farmer is the one individual that can produce it, because he has the land and the equipment and the knowledge of producing it.

World Depends Upon Farmer

"The Government at this period of the war is fully awake to the responsibility of the farmer and the dependence upon him which the world at large has begun to realize.

"The farmer, today, hardly comprehends the enormous profits he is now making, as a direct result of the war. Many of them who have been on the farm year after year, with a modicum of profit, have suddenly found themselves reaping enormous gains and excess profits, which to many of them were unbelievable.

"The profits from the products of the soil are astonishing. Everything that comes from the soil is bringing to the farmer the highest prices. Never in the history of farming has every product of the soil brought such prices as are now obtainable. There have been years when occasional products have brought enormous prices, but never when all products bring these abnormal prices and profits.

"Therefore, the farmer must face the tragedy which is now taking place, and he must be fully alive to the importance of his position and to the great part which he is expected to play.

"He must be responsive to the demand of humanity and of the Government. He must be able to see the requirements expected of him. He must not hesitate to make his answer, and that answer in the right way.

Liberty Bonds Rare Investment

"What are we looking for him to do? What shall we say to him? We expect the farmer to raise large crops; we want him to make large profits, and then we are looking for him to display and exercise his patriotism by investing a part of his profits, a part of his enormous gains, into the Second Liberty Loan or 1917, a United States Government War Bond, the best piece of property in the world. It has no equal for stability; it is liquid; it is an asset which any farmer might be proud to hold as property. He will realize that he can hypothecate it, that he can sell it, that he can trade with it, that it is worth One Hundred Cents on the Dollar nearly every day in the year, that it is almost inconceivable whereby he might make a loss through his purchase.

"He must realize that when he buys the Government Four Per Cent Bond he is not giving the Government anything, but that he is receiving a dollar back for every dollar that he invests, because it is the rarest of all investments.

"When he does these things which he is expected to do, and when he realizes the facts in connection with the production in which he is dominant, and when he realizes the further fact of the strength of his investment, I feel sure in saying that the farmer of America, and particularly of California, will not be found wanting."

This War Must Be Fought On European Soil

If the peoples of the earth are not to become toiling millions for the Prussian Junkers and the Prussian Krupps, if they are not to be terror-ridden slaves at the mercy of a German Kaiser's will, Prussianism must be driven back within its own borders and kept there.

Not only English freedom, French freedom is at stake. Our own cherished institutions, our free government, all that our fathers fought for, all that free peoples prize, is threatened by an enemy that would impose his own hateful Kultur on every free institution in every liberty-loving land.

That is why the war must be fought on European soil. We are fighting in Europe now that we may not have to fight in America, on the very thresholds of our own homes, later.

We are fighting for the safety and liberty of our children, our homes, our country. No price is too great to pay for Victory.

Americans, you are called upon to back our armies in France, to furnish them the guns and shells and ships and airplanes, the enormous quantities of every sort of supplies that they must have to defeat the Prussian armies and drive them back across the Rhine.

The War Is Being Fought in Europe—
But It Must Be Won Right Here at Home

CELEBRATED HER EIGHTY-FIRST BIRTHDAY

Mrs. Mary Shaw was tendered an informal reception by neighbors and friends on Tuesday, her eighty-first birthday. The attractive home of Mrs. Shaw and Miss Pemberton was decorated with touches of the season's fairest flowers and what brightened the day more than all else were two letters from her sons, Harry Shaw of Corcoran and Colonel Shaw in France which came to felicitate her on the happy occasion. Mrs. Shaw is a remarkable woman and a credit to her illustrious son in the army and family in general. Age has dealt most kindly with her and she is not only keen of mind but carries herself with the real spirit of youth.

MRS. HENRIETTA HAHMANN PASSES AWAY

Mrs. Henrietta Hahmann, distinguished and beloved pioneer of Santa Rosa, is dead. Her death created profound sorrow throughout the entire county and the funeral Wednesday was one of the most impressvie and beautiful ever held in the city of Santa Rosa. Mrs. Dora Stofen, formerly president of the Sonoma Valley Womans Club, came up from Bakersfield to attend the last sad obsequies of her life long friend.

Deceased was often a visitor to Sonoma during the residence here of the G. T. Pauli family years ago.

Mr. and Mrs. A. B. Spreckles, accompanied by Mrs. Jules Clerfayt motored over here Monday from Napa in the interest of the Belgian Relief fund.

Hamel Wagnop is now a gunner in the navy having decided that being a yeoman was far too tame. He made an excellent record for a beginner by taking apart one of the big guns and putting it together again with all its intricate mechanism.

Jack Paulson was over from Pope valley one evening this week. He is anxious to go to France as a Y. M. C. A. worker. Jack is a live wire all right and is popular with the boys.

SCHOOL HAS WAR ORPHAN

Sonoma Grammar School Has Adopted a Little Girl Over in France

The Grammar school children of Sonoma have a real little French war orphan all adopted and they are sending their nickels and dimes to the amount of $3 monthly to support the unfortunate little eight year old daughter of a war victim in the District of Marne. She is thus enabled to stay at home with her mother instead of being sent away to an orphans home and it is with real heart interest that Sonoma's school children make it possible for this little girl, Adrienne Moreau, to have the love of her mother instead of the cold comfort of a big institution. Adrienne Moreau is a pretty name and the school is eagerly awaiting a letter or picture from their young friend across the seas.

The war, the battle of the Marne, the devastation, desolation and grief over in France is all coming home to the school children as they picture Adriene's pathetic background in contrast to the cheerful homes, peace, comfort and happiness which is the lot of almost every boy and girl in the flower carpeted, sun kissed valley of Sonoma. Adrienne's experiences living in the war zone has made the world war an awful reality and they are getting that broader vision which Dr. Fisher admonished us all to have and to hold, broader vision and sympathy.

Adrienne Moreau is teaching our children more than history ever could, more than geography more than poetry. Adrienne is a facinating and compelling romance in the lives of our boys and girls who find in their war orphan opportunity for real service.

Mrs. Hannah Appleton had an attack of la grippe while visiting in Berkeley and wanting to come home, was accompanied here by her son, Will, who will be glad to know that his mother is now convelescing.

SUSPECTED MAN ARRESTED

Robert Zumfelde, who was arrested in Sonoma in March, 1915, on the charge of assault with intent to rob and was detained in the county jail in this city until May, when the charge was dismissed on account of insufficiency of evidence, is in trouble again.

The Department of Justice is now investigating this man in regard to his alleged pro-Germanism, and United States District Attorney John W. Preston has been inquiring from various sections of the state where Zumfelde has resided as to his reputation as a law-abiding citizen. Sheriff Smith read the transcript of testimony at the hearing of this case and sent several pertinent facts to the federal authorities.

Zumfelde had the working plans of a new aeroplane among his papers and during his residence in Sonoma county claimed to have been a student of psychology. He had in his possession also various maps of San Francisco bay and of the coast counties, together with the various harbors and landing marked.

The meeting then closed with the general choruses: "Joan of Arc," "The Long, Long Trail, "Keep the Home Fires Burning", and the Finale, "The Star Spangled Banner."

Flowery School Children are a member of the Junior Red Cross League, having already secured their certificate to that effect.

The children have knitted from odds and ends, one blanket, seven feet by nine feet, which was presented to the French Relief, and for which they have received acknowledgement and thanks. They also raised $45 during the big Red Cross drive in December.

And now through their efforts they assisted very materially in raising the $2,000 for the Third Liberty Loan, to say nothing of those subscriptions which Mr. Stevens has secured since the rally from those who were present.

This is the fine account Flowery district has given of itself to date.

SAILORS MOTHER IS STRICKEN

Mrs. Heugett of Agua Caliente Found Unconcious and Recovery Is Doubtful.

Mrs. John Heugett of Agua Caliente, mother of Bert Heugett who enlisted in the navy at the outbreak of the war and had many narrow escapes from submarines, was found unconscious in her home last Friday afternoon. She had evidently been stricken Thursday night for the pioneer mother was lying in her nightgown at the foot of her bed with the light still burning when neighbors alarmed at her failure to respond to their calling went in to investigate. The light burning in the home could be seen from the outside and her cows had not been milked, both circumstances causing some apprehension since the usually active woman had not been seen around her ranch as usual. About 4 o'clock Friday afternoon Mrs. Perry of Vineburg who came to the Heugett ranch to inquire about a horse advertised for sale, entered the house accompanied by a neighbor and Mrs. Heugett's pitiful plight was discovered. A physician summoned pronounced the stricken woman's case one of paralysis. Despite restoratives she failed to regain conciousness.

Her husband employed somewhere in San Francisco could not be located until Sunday. He was deeply grieved when he arrived home and found his wife unable to recoginze him. He had been making good wages in San Francisco and she had offered to carry on the ranch during his absence little dreaming of the weak state of her health. Her son has not been heard from for several months but the navy department has been advised of Mrs. Heugett's condition in hopes that her sailor boy may be located.

F. L. Munk, the new foreman of Sonoma' glove factory cutting department arrived here yesterday from Napa with his family and have rented a house in town.

Mrs. M. Valente is improving her property on Spain St. She is having a new foundation put in and other work done.
